To Whom It May Concern,

I am writing to recommend Marites Ladia as a domestic helper. Since July 2017, Marites has been a valued part of our family since we arrived in Hong Kong, providing great care to our daughters (now 8 months and 7 years), and assisting with household chores at the same time.

Marites took care of both our daughters from birth. Marites's positive attitude, reliability, and trustworthiness have made her help important to the growing up of our kids.

Her responsibilities have also included everything from cleaning and cooking to shopping and laundry, all of which she has executed with dedication and care.

She has always been able to balance her constant availability with respect for our privacy, and her good English skills have helped clear communication.

Our family dynamics have changed with the arrival of our second daughter, and so did our family's needs, but we recommend Marites.

We are happy to provide further information upon request and Marites will be able to provide our contact details if needed.

Kind regards,

p
