

## Letter of Recommendation

John Watson, Former Employer

Date: 11/16/2025

To Whom It May Concern,

I am writing to wholeheartedly recommend Myraflor Dupitas for domestic helper. During the time that I have known Myraflor, I have been continually impressed by her dedication, professionalism, and positive attitude.

As her former employer for over ten years, I think we know her very well. Myraflor has always been hardworking, dependable, trustworthy and in many ways a part of the family. When she decided to return home after 10 years of working overseas to be with her own family we were sad to see her go.

Myraflor is a good cook and baker and keeps a very clean house. She learned how to prepare meals for our blended Western and Asian family- often researching Chinese and Western recipes online and through her network of friends to support our family. As an example, she makes a very good Crepe Cake. She is also resourceful- finding the best places to shop for various items from groceries to school supplies and other items. Myraflor also does a great job keeping our apartment very clean and tidy for a household of 5 people.

She juggled schedules for the childrens' school, after school activities, doctor/ dental visits, and other activities with our complete trust and always delivers.

In addition, Myraflor took great care of my mother who was 86 years old and had lung cancer. She exercised great judgment and compassion when caring for the elderly.

I am confident that Myraflor will serve your family well. I highly recommend her without reservation. Put simply, my wife and our family would not have been able to make it work here in Hong Kong without her service- she provided the necessary attention and presence to our home allowing us to work.

Sincerely,

---
